

## *New Software Version 1.37*

### *for FFD 3.5" Ultra-Narrow and Ultra-Wide SCSI*

Product Update, August 31, 2004

#### **Description**

New software version 1.37 has been released for FFD 3.5" Ultra-Narrow SCSI and FFD 3.5" Ultra-Wide SCSI. This version replaces the current software version 1.36. The main change is improved product reliability.

#### **Ordering Information**

The new software version is applicable for the following products:

<b>Product</b>	<b>Capacity (MB)</b>	<b>Updated Ordering Information</b>
FFD 3.5" Ultra-Narrow SCSI	All capacities	<b>FFD35US-CCCC-T-P50</b> CCCC - Indicates disk capacity T – Indicates operating temperature range
FFD 3.5" Ultra-Wide SCSI	All capacities	<b>FFD35US-CCCC-T-P68</b> <b>FFD35US-CCCC-T-P80</b> CCCC - Indicates disk capacity T – Indicates operating temperature range

#### **Reason for Change**

The new software version provides improved product reliability.

#### **Availability**

FFD 3.5" Ultra-Narrow SCSI and FFD 3.5" Ultra-Wide SCSI will be shipped with software version 1.37 beginning September 1, 2004. Customers who prefer to keep the previous software version 1.36 for newly ordered units must notify M-Systems. For such customers, special ordering information will be provided to indicate that the older software version was shipped by request.

#### **How to Contact Us**

Please contact your M-Systems' representative or visit the FFD web page on the M-Systems' website ([www.m-systems.com](http://www.m-systems.com)) for any further information or assistance.
