

New Software Version 1.13

for FFD 2.5" Ultra ATA

Product Update, December 2004

Description

A new software version 1.13 has been released for the FFD 2.5" Ultra ATA. This version replaces the current software version 1.12. The main changes are:

- Better compatibility with Serial ATA-to-Parallel ATA (SATA-to-PATA) bridges
- Support for new flash processes

Ordering Information

The new software version is applicable for the following product:

Product	Capacity (MB)	Updated Ordering Information
FFD 2.5" Ultra ATA	All capacities	FFD-25-UATA-CCCCC-T-H CCCCC - Indicates disk capacity T – Indicates operating temperature range H – Indicates case height

Reason for Change

The new software version provides enhanced product performance.

Availability

The FFD 2.5" Ultra ATA will be shipped with software version 1.13 from Mid Dec, 2004. Customers that prefer to keep the previous software version 1.12 for new ordered units must notify M-Systems. Special ordering information will be provided to indicate that the FFD 2.5" Ultra ATA has been shipped with the requested older software version.

How to Contact Us

Please contact your M-Systems representative or visit the FFD web page on the M-Systems website (www.m-systems.com) for any further information or assistance.
